PROFILE

Agentic AI Engineer and Fullstack Developer with 5+ years building production-grade AI systems — LLM orchestration, RAG pipelines, and multi-agent apps — with Next.js and FastAPI.

Shipped 30+ projects for 20+ clients with focus on performance, security, and clean architecture.

WORK EXPERIENCE

Freelance / Independent

2024 — Present

Agentic AI Engineer

- Designed and shipped autonomous agent systems for startups — research, automation, and support — using LangGraph, OpenAI, and RAG.
- Built 15+ AI agents and RAG pipelines deployed in production.

Various Clients

2022 - 2024

Fullstack Developer

- Shipped 20+ production web apps using Next.js and FastAPI, covering auth, payments, dashboards, and realtime features.
- Focused on performance, developer experience, and scalable architecture.

GitHub

Open Source Contributor

Open Source Contributor

- Contributing to AI tooling, developer tools, and design-system libraries.
